SUBJECT: Permit Application No. NAN-2015-01177-UDE  
by Lee's Park Campground  
Town of Saratoga, Saratoga County, New York

Leo J. Nosal, Jr.  
Lee's Park Campground  
1466 State Route 9P  
Saratoga Springs, New York 12866

Dear Mr. Nosal:

This office has reviewed your Joint Application Form dated May 5, 2016, its attachments and the additional information you submitted on June 27, 2016, including the drawings prepared by CLA Site Landscape Architecture, Engineering & Planning, P.C., entitled "Layout & Grading Plan, Lee's Campground, Town of Saratoga, Saratoga County, New York", Sheet L-100, and "Detail Plan, Lee's Campground, Town of Saratoga, Saratoga County, New York", Sheet L-700, which are both dated April 22, 2016, and last revised on June 8, 2016. The submitted information describes a proposal that would consist of the following:

**The discharge of fill material into waters of the United States, specifically up to 0.06 acre of wetlands, to facilitate the stabilization of 866 linear feet of eroding shoreline along Fish Creek and to implement stormwater management improvements at the existing campground which are aimed at reducing shoreline erosion. A bio-engineered shoresox system would be used to stabilize the shore, which includes the re-establishment of hydrophytic vegetation. Gravel trenches would be established throughout the campground which would terminate at the shoresox system.**

Based upon the information provided, it appears that your proposed work may be authorized under Department of the Army nationwide general permit numbers: 13 and 18. The nationwide permits are prescribed as a Reissuance of Nationwide Permits in the Federal Register dated February 21, 2012 (77 FR 10184).

The work may be performed without further authorization from this office provided the activity complies with the terms and conditions of the Nationwide Permits (NWP) and the permit conditions listed in Section B, Nos. 13 and 18, Section C, any applicable New York District regional conditions, and any applicable regional conditions added by the State of New York. Please note that NWP General Condition No. 12 requires the installation and maintenance of proper soil erosion and sediment controls during construction.

PLEASE USE THE ABOVE 18-CHARACTER FILE NUMBER ON ALL CORRESPONDENCE WITH THIS OFFICE

The 2012 Nationwide Permits, including their final regional conditions, water quality certifications, and coastal zone concurrence statements are available at:

[http://www.nan.usace.army.mil/Portals/37/docs/regulatory/geninfo/natp/NWP\\_PN\\_30MAY12.pdf](http://www.nan.usace.army.mil/Portals/37/docs/regulatory/geninfo/natp/NWP_PN_30MAY12.pdf)

Please review and familiarize yourself with all relevant terms and conditions of the nationwide permit prior to proceeding with your project, and subsequently ensure you adhere to all conditions through the duration of the project. If you do not have internet access and require a specific paper copy, please contact the undersigned to request one be mailed to you. Please be sure to have your permit application number readily available when you call.

This verification is valid until March 18, 2017, unless the nationwide permit is modified, reissued, or revoked. This verification will remain valid until March 18, 2017, if the activity complies with the terms of any subsequent modifications of the nationwide permit authorization. If the nationwide permits are suspended, revoked, or modified in such a way that the activity would no longer comply with the terms and conditions of a nationwide permit, and the proposed activity has commenced, or is under contract to commence, the permittee shall have 12 months from the date of such action to complete the activity.

Please note that this nationwide permit (NWP) authorization is based on a preliminary jurisdictional determination (JD), a copy of which is enclosed. A preliminary JD is not appealable. If you wish, prior to commencement of the authorized work you may request an approved JD, which may be appealed, by contacting the New York District, U.S. Army Corps of Engineers for further instruction. To assist you in this decision and address any questions you may have on the differences between preliminary and approved jurisdictional determinations, please review the U.S. Army Corps of Engineers Regulatory Guidance Letter (RGL) No. 08-02, which can also be found at:

<http://www.usace.army.mil/Portals/2/docs/civilworks/RGLS/rgl08-02.pdf>

Please note that this determination does not eliminate the need to obtain any other Federal, State or local authorizations required by law for the above described work, including any required permit from the NYSDEC.

In order for us to better serve you, please complete our Customer Service Survey located at:

<http://www.nan.usace.army.mil/Missions/Regulatory/CustomerSurvey.aspx>

Any inquiries can be directed to the undersigned at (518) 266-6354.

Sincerely,

A handwritten signature in black ink, appearing to read "Christine Delorier". The signature is fluid and cursive, with a long horizontal stroke at the end.
